Foundation Recap

Matt Jones Orchestra redefines the orchestra as a contemporary cultural force. Positioned at the intersection of orchestral tradition and contemporary creative practice, MJO's uniqueness lies in the tensions it holds and makes visible.

“I’ve developed my own style of writing that’s been inspired by my years of playing piano and organ in the black church, and I didn’t go to school to learn how to write, I’m self taught.”

“Orchestra unlocks a level of prestige and eliteness. Normally people think of a traditional classical orchestra as a bunch of white serious classical musicians with an old conductor.”

Cool x Prestigious

This tension becomes the foundation for the visual identity. And it defines four design principles that guide how the visual identity is designed.

Wordmark

Matt Jones Orchestra is a meeting point of diverse musical paths. In the wordmark, each letter carries its own distinct visual character, connected through a series of ligatures, echoing the coming together of musicians from different backgrounds into a single ensemble. Individuality is preserved, but connection becomes the defining gesture, capturing what makes Matt Jones Orchestra distinct within the traditional classical music landscape.

Color

The color palette begins with a monochromatic foundation, capturing the richness, complexity, and heritage of the orchestra.

A singular accent color acts as the connective force: the thread that brings individual voices together, transforming distinct elements into a unified collective.

**Cobalt signals connection, energy
and contemporary culture.
It connects naturally to the orchestral world
through ideas of depth, atmosphere, and
emotional resonance, but avoids the
institutional feeling of traditional navy.**

Typography System

Space Grotesk provides the identity with a contemporary foundation of clarity and precision. Its pronounced horizontal strokes and circular letterforms echo the wordmark's most distinctive gestures. It balances the expressiveness of the wordmark by introducing structure and restraint, allowing the two to work in harmony rather than compete for attention.
